Asure Software Files S-3 Shelf Registration Statement

AUSTIN, Texas, Dec. 13, 2012 (GLOBE NEWSWIRE) -- [AsureSoftware](#), Inc. (Nasdaq:ASUR), a leading provider of workplace management software solutions, today announced that it has filed a Form S-3 registration statement with the U.S. Securities and Exchange Commission (the "SEC"). The registration statement related to these securities has been filed with the Securities and Exchange Commission but has not yet become effective. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective.

The shelf registration statement, when declared effective by the SEC, will allow Asure Software to offer and sell, in one or more offerings, common stock, preferred stock, debt securities, warrants, units or any combination thereof with a maximum aggregate offering price of \$30 million. While Asure Software has no immediate plans to resell shares, the S-3 filing is a routine administrative matter that enables the business' future growth strategy. The filing also positions Asure to have the flexibility needed to take advantage of future acquisition opportunities and to meet the interests of large investors who may be looking to make investments.

Safe Harbor for Forward-Looking Statements

Statements made in this press release regarding Asure's business, which are not historical facts, are "forward-looking statements" that involve risks and uncertainties. Such risks and uncertainties could cause actual results to differ materially from those contained in the forward-looking statements.
