

# Forgent Announces the Results for the 2006 Fiscal Second Quarter

## Revenues Increase by \$0.7M, Operating Expenses Decrease by \$0.2M

AUSTIN, TX, Mar 14, 2006 (MARKET WIRE via COMTEX News Network) -- Forgent<sup>™</sup> Networks (NASDAQ: FORG) today announced results for the 2006 fiscal second quarter ended Jan. 31, 2006. During the quarter, the company reported total revenues of approximately \$4.4 million. Highlights for the quarter include:

- Increased total revenues to \$4.4M
- Increased intellectual property revenues by \$0.9M over the prior quarter to more than \$3.8M
- Reduced operating expenses to \$2.7M
- Reduced net loss to \$0.02 EPS
- Maintained cash, cash equivalents and short-term investments of approximately \$15.6M

"We are pleased with the '672 Patent licensing revenue and continue to see activity and interest in this important area. We are also seeing progress with respect to the litigation of both the '672 and '746 Patents. The addition of the Susman Godfrey firm to the '672 team has made a positive contribution to the program," said Richard Snyder, chairman and CEO of Forgent. "We continue to license our technology, manage our operating expenses, as well as maintain a solid cash and working capital position."

## Intellectual Property

The intellectual property business generated revenues of approximately \$3.8 million for the second quarter of fiscal 2006, compared to \$2.9 million for the first quarter of 2006. This past quarter, 8 intellectual property licenses were signed.

#### U.S. Patent No. 4,698,672 (the '672 Patent)

Forgent has litigation pending against approximately 30 companies for infringement of its '672 Patent in the United States District Court for the Northern District of California. The '672 Patent relates to digital image compression used in digital image devices that compress, store, manipulate, print or transmit digital images such as digital cameras, personal digital assistants, cellular telephones, printers, scanners, and certain software applications. Following the filings of the litigation, 13 companies have entered into license or settlement agreements.

## U.S. Patent No. 6,285,746 (the '746 Patent)

Forgent has pending litigation against 15 companies for infringement of its '746 Patent in the United States District Court for the Eastern District of Texas, Marshall Division. The '746 Patent relates to a computer controlled video system allowing playback during recording.

After the quarter end, Judge Leonard Davis of the United States District Court for the Eastern District of Texas, Marshall Division set a mediation date for April 6, 2006.

Since its inception approximately four years ago, Forgent's intellectual property program has generated more than \$108.4 million in revenues primarily from licensing the '672 Patent to more than 60 different companies in Asia, Europe and the United States. The company's patent portfolio includes the combined inventions of Compression Labs, Inc., VTEL Corporation, and Forgent Networks, Inc.

### Software

NetSimplicity software revenues declined by approximately 25% to \$0.5 million for the second quarter of fiscal 2006, compared to \$0.7 million for the first quarter of fiscal 2006. The decline was due in part to sales force turnover and a softer than expected holiday season. Forgent anticipates a return to its historical growth pattern in the third quarter of fiscal 2006.

NetSimplicity increased its customers to more than 2,000 worldwide. The company provides a low-cost, high-value software application to small and medium businesses and divisions of large enterprises. NetSimplicity sells Meeting Room Manager and

other high-value business applications, such as IT asset management, via its a low-cost e-marketing and telesales model.

#### Fiscal Second Quarter Results

Revenue was \$4.4 million for the fiscal second quarter compared to \$3.6 million for the 2006 fiscal first quarter, reflecting the inherent unpredictability of intellectual property licensing revenues. Overall operating expenses were approximately \$2.7 million, down from the prior quarter by \$0.2 and the lowest level in more than a year. The company had a net loss of \$0.5 million or \$0.02 per share for the second fiscal quarter of 2006, compared to a net loss of \$1.4 million or \$0.05 per share for the first quarter of 2006. Cash, cash equivalents and short-term investments were approximately \$15.6 million.

#### Outlook

Forgent expects to continue to generate licensing revenues in the 2006 fiscal year and fiscal third quarter. However, predicting the timing and amounts will be complicated because of the uncertainty of licensing negotiations and due to the pending litigation.

#### Conference Call and Webcast

Forgent has scheduled a conference call with the investment community for Tue, Mar. 14, 2006, at 10:00 a.m. CT (11:00 a.m. ET) to discuss the quarter and outlook. To take part, dial 800-591-6944 ten minutes before the conference call begins, ask for the Forgent event, and use a pass code of 71075178. International callers should dial 617-614-4910 and use a pass code of 71075178. Investors, analysts, media and the general public will also have the opportunity to listen to the conference call over the Internet by visiting the investor relations page of Forgent's web site at <a href="https://www.forgent.com">www.forgent.com</a>. To listen to the live call, please visit the web site at least 15 minutes early to register, download and install any necessary audio software. For those who cannot listen to the live broadcast, a replay will be available shortly after the call on the investor relations page of our web site at <a href="https://www.forgent.com">www.forgent.com</a>.

## **About Forgent**

Forgent<sup>™</sup> Networks (NASDAQ: FORG) develops and licenses intellectual property and provides scheduling software to a wide variety of customers. Forgent's intellectual property licensing program is related to communication technologies developed from a diverse and growing patent portfolio. Forgent's software division, NetSimplicity provides a spectrum of scheduling software that enables all sizes of organizations to streamline the scheduling of people, places and things. For additional information please visit <a href="https://www.forgent.com">www.forgent.com</a>.

#### Safe Harbor

This release may include projections and other forward-looking statements that involve a number of risks and uncertainties, and actual results in future periods may differ materially from those currently expected. Some of the factors that could cause actual results to differ materially include changes in the general economy or in our industry, rapid changes in technology; sales cycle and product implementations; risks associated with transitioning to a new business model and the subsequent limited operating history; the possibility of new entrants into our software markets, the possibility that the market for the sale of certain software and services may not develop as expected; or that development of these software and services may not proceed as planned; the risks associated with the company's license program, and including risks of litigation involving intellectual property, patents and trademarks. Additional discussion of these and other risk factors affecting the company's business and prospects is contained in the company's periodic filings with the SEC.
