

Asure Software and HRnext transfer software source code, look towards future opportunities

June 7, 2018

AUSTIN, Texas, June 07, 2018 (GLOBE NEWSWIRE) -- [Asure Software](#) (NASDAQ:ASUR), a leading provider of Agile Workplace Solutions, which includes Human Capital Management (HCM) and workspace management software, announced at their annual C3 User Conference in Orlando, Florida the sale of HRnext's integrated HR source code to Asure Software. Asure had been previously reselling the application, developed by HRnext, as part of their integrated Small to Mid-Size business platform.

Joe Karbowski, CTO of Asure Software said, "It has been a privilege to partner with an industry expert such as HRnext and co-innovate a new HR solution together for our solution." Karbowski continued, "As Asure evaluated future strategies, we felt it was important to bring the HR solution in-house, allowing us to stay true to our vision of a single integrated platform." Karbowski indicated that while HRnext will continue to develop and market the product under their company name to new partners and customers, the two entities may continue to work on joint initiatives. "Both companies have already spoken about possible future projects - this current action is simply about enabling support of Asure's clients directly."

Dave Fried, Co-Owner of HRnext and a veteran of the payroll and HR outsourcing industry concurs, "Working with Asure has allowed HRnext to showcase the viability of our cross platform HR solution, which our team is very proud of. Asure has provided insight and partnership on both features and design ideas which we have been able to leverage to both our current and future target customers. We look forward to moving forward with our solution and any future engagements with Asure."

Asure indicated at its C3 conference that the transition of the solution was just starting off, and more details would be available to clients in the upcoming weeks.
