# Management Commentary

"We closed another strategic reseller acquisition since our last earnings call, bringing the total we've completed this year to seven. These acquisitions enhance our scale, product, customers, cross-sell opportunities, and prepare us for future growth and margin expansion," stated Pat Goepel, CEO.

CFO Kelyn Brannon noted, "Our cloud strategy continues to realize strong momentum. Recurring revenue represented 83% of total revenue, up from 79% in the year-ago quarter. Furthermore, cloud revenue represented 75% of total, up from 69% in the year-ago quarter and our balance sheet is very healthy having ended the quarter with \$46.8 million in cash, bolstered by our recent equity offering in lune."

"We continue to aim for both topline growth and bottom-line leverage. We're on the cusp of surpassing \$100 million in revenue while generating non-GAAP EBITDA margin of 22% to 25%. Asure's current product suite and depth of offerings has never been more robust. And our footprint of areas we target has never been as extensive," concluded CEO Pat Goepel.

# Asure delivered the following results for its second quarter 2018:

Cloud Bookings: Second quarter cloud bookings were up 75% year-over-year.

Revenue: Total second quarter revenue was \$21.8 million, an increase of 69% from \$12.9 million in the second quarter of 2017. Recurring revenue represented 83% of total revenue, up from 79% in the year-ago quarter. Cloud revenue represented 75% of total, up from 69% in the year-ago quarter.

Gross Profit: GAAP gross profit was \$14.5 million (66.8% margin), a 45% increase from \$10.1 million (78.1% margin) in the second quarter of 2017. Non-GAAP gross profit\* was \$15.0 million (69.1% margin), up 48% from \$10.2 million (78.9% margin) in the year-ago quarter.

Earnings (Loss) per Share: GAAP loss per share was \$(0.29) compared with \$(0.18) in the second quarter of 2017. Non-GAAP earnings per share\* were \$0.14, an increase of 70% from \$0.08 in the year-ago quarter.

Non-GAAP EBITDA\*: Non-GAAP EBITDA was \$4.9 million (22.4% margin), an increase of 125% from \$2.2M (16.8% margin) in the second quarter of 2017.

# Recent Business Highlights

New Wins: During the second quarter, Asure added over 200 new clients. Asure secured new wins across a range of industry verticals including AT&T, Barclays New York, London Borough of Hounslow, Ellie Brown, Faithful + Gould @ Manchester City Council, Willis Towers Watson, Cigna, and Boston Consulting Group.

Partnerships Established: Asure expanded its partner ecosystem with new partners including Density.io, OneWorkplace and Red River Technology.

Hosted C3, Asure Software's Annual Customer Conference: During May 2018 Asure held C3 in Orlando, Florida. Approximately 200 attendees attended and participated in dozens of breakout sessions. The event was by showcased by 18 sponsors, and many industry analysts were also in attendance.

Added to Russell Index: Asure Software was added to Russell 2000<sup>®</sup> Index and the broad-market Russell 3000<sup>®</sup> Index effective at market close on June 22, 2018. Russell US Indexes are widely used by investment managers and institutional investors as the basis for index funds and as benchmarks for active investment strategies. Approximately \$9 trillion in assets are benchmarked against Russell US Indexes.

Closed Public Offering: On June 18, 2018, we closed our previously announced underwritten public offering. We sold an aggregate of 2,375,000 shares of our common stock at a public offering price of \$17.50 per share, including 375,000 shares pursuant to an option granted to the underwriters that was exercised in full. We realized net proceeds of approximately \$38.9 million, after deducting underwriting discounts and estimated offering expenses. iSystems Holdings LLC, the selling stockholder, sold 500,000 shares of common stock at the same public

offering price.

Acquisitions in April 2018: Successfully closed several strategic acquisitions in April 2018: Wells Fargo Business Payroll Services' Evolution HCM client portfolio and Austin HR, located in Austin, Texas, a provider of outsourced human resources (HR), consulting, and professional services around payroll and employee benefits on the Evolution platform. Asure also acquired OccupEye Limited, a provider of sensor-based solutions that allow organizations across the world to streamline operations, create efficiencies, enhance productivity and analyze employee engagement, which generates cost savings and creates a more employee-focused workplace. OccupEye's technology combined with Asure's existing workplace management software HCM services, allows Asure to expand its technology solutions while adding its own complementary and proprietary sensor hardware and analytics.

Acquisition in July 2018: Successfully acquired USA Payroll, Inc. ("USA Payroll"), headquartered in Rochester, NY. USA Payroll resells Asure Software's industry leading HRIS platform, Evolution, working with companies to reduce payroll compliance risk and manage time through comprehensive workforce management solution. The addition of USA Payroll not only expands our national reach but also enables us to provide clients with access to greater breadth and depth of solutions.

Non-GAAP Financial Measures: This press release includes information about non-GAAP diluted earnings per share, non-GAAP tax rates, non-GAAP net income, non-GAAP gross profit, non-GAAP EBITDA, and non-GAAP free cash flow (collectively the "non-GAAP financial measures"). These non-GAAP financial measures are measurements of financial performance that are not prepared in accordance with U.S. generally accepted accounting principles and computational methods may differ from those used by other companies. Non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures and should be read only in conjunction with the company's consolidated financial statements prepared in accordance with GAAP.

Non-GAAP EBITDA differs from GAAP net loss in that it excludes things such as interest, tax, depreciation, amortization, stock compensation, and one-time expenses. Asure Software is unable to predict with reasonable certainty the ultimate outcome of these exclusions without unreasonable effort. Therefore, Asure Software has not provided guidance for GAAP net loss or a reconciliation of the foregoing forward-looking Non-GAAP EBITDA guidance to GAAP net loss.

Management uses both GAAP and non-GAAP measures when planning, monitoring, and evaluating the company's performance.

The primary purpose of using non-GAAP measures is to provide supplemental information that may prove useful to investors and to enable investors to evaluate the company's results in the same way management does.

Management believes that supplementing GAAP disclosure with non-GAAP disclosure provides investors with a more complete view of the company's operational performance and allows for meaningful period-to-period comparisons and analysis of trends in the company's business. Further, to the extent that other companies use similar methods in calculating non-GAAP measures, the provision of supplemental non-GAAP information can allow for a comparison of the company's relative performance against other companies that also report non-GAAP operating results.

Specifically, management is excluding the following items from its non-GAAP earnings per share, as applicable, for the periods presented in the first quarter 2018 financial statements and for its non-GAAP estimates for 2018:

Stock-Based Expenses: The company's compensation strategy includes the use of stock-based compensation to attract and retain employees and executives. It is principally aimed at aligning their interests with those of our stockholders and at long-term employee retention, rather than to motivate or reward operational performance for any particular period. Thus, stock-based compensation expense varies for reasons that are generally unrelated to operational decisions and performance in any particular period.

Amortization of Purchased Intangibles: The company views amortization of acquisition-related intangible assets, such as the amortization of the cost associated with an acquired company's research and development efforts, trade names, customer lists and customer relationships, and acquired lease intangibles, as items arising from pre-acquisition activities determined at the time of an acquisition. While these intangible assets are continually evaluated for impairment, amortization of the cost of purchased intangibles is a static expense, one that is not typically affected by operations during any particular period

Income Tax Effects and Adjustments: Beginning in first quarter 2018, the company is using a fixed projected non-GAAP tax rate in order to provide better consistency across the interim reporting periods by eliminating the effects of items such as changes in the tax valuation allowance and non-cash tax effects of acquired goodwill and amortization, since each of these can vary in size and frequency. This tax rate could be subject to change for a variety of reasons, such as significant changes in the acquisition activity or fundamental tax law changes in major jurisdictions where the company operates. The company re-evaluates this tax rate on an annual basis or when any significant events that may materially affect this rate occur. The non-GAAP tax rate for third and fourth quarter 2018 is currently projected to be approximately 5.0 percent, compared with 0.0 percent in first and second quarter 2018.

Amortization of Capitalized Internal-Use Software, Acquisition-Related, and One-Time Expenses: The company's non-GAAP financial measures exclude amortization of internal-use capitalized software costs and acquisition-related expenses as well as one-time expenses, such as material tax credits, material interest-expense credits, severance, recruitment, and relocation.
