Asure Software to Eliminate Scheduling Complexity for New York School of Law with Resource Scheduler and Banner Integration

October 31, 2018

The combination of Resource Scheduler and Banner will create a seamless scheduling experience for faculty and students.

AUSTIN, Texas, Oct. 31, 2018 (GLOBE NEWSWIRE) -- Asure Software **(NASDAQ: ASUR),** a leading provider of Human Capital Management (HCM) and workplace management software, has been selected by New York Law School (NYLS) to deliver a centralized and streamlined room and resource scheduling solution that integrates with the school's existing Banner course scheduling platform.

The higher education industry has historically struggled with a labor-intensive scheduling and room booking process that is not adequately able to take into consideration both student and faculty needs, space availability and course considerations. This integration will automatically feed NYLS's Banner course and instructor info into [Asure's Resource Scheduler platform](), doing away with the need for duplicate data entry and manual intervention.

"Asure is committed to providing solutions to challenges facing higher education organizations," said [Joe Karbowski](), CTO & COO of Asure Software. "The work we're doing with NYLS is a great example of that."

NYLS is the latest to join the growing list of leading higher education clients, including Northeastern University, University of Maryland School of Law, Grand Canyon University, Bentley University and more, who rely on Asure to provide them with a fast, accurate and efficient way to manage their workplace.
