### Management Commentary

"I am pleased with the success we are experiencing as we begin to increase our focus on growth in 2019 after building scale, infrastructure and profitability in 2018," said Pat Goepel, CEO of Asure Software. "Companies across every industry and in every geography are increasingly relying on Asure's HCM and workspace solutions."

"Our focus in 2019 is to absorb recent acquisitions, show margin improvement, experience better cash generation and invest in our product roadmap. We enter 2019 with solid momentum and are keenly focused on accelerating the velocity of our cross-selling and further scaling our business," concluded Goepel.

"We are pleased with our ability to secure longer-termed contracts, which provide more-visible recurring revenue. In 2018, 27% of new contracts had

terms greater than 25 months, up significantly from 16% in 2017 and just 1% in 2016. Operationally, we are also on track to benefit from our new ERP and AWS cloud migrations that are scheduled to be implemented by mid-year," said Kelyn Brannon, CFO of Asure Software.

#### Asure delivered the following results for its fourth quarter and twelve months ended 2018:

**Cloud Bookings:** Cloud bookings were up 65% year-over-year.

#### Recent Business Highlights

**New Wins:** During the fourth quarter, Asure secured HCM wins across a range of companies including NetPayroll, Hilltop National Bank, Centro and Prolong Pharmaceuticals. Fourth quarter workspace wins included Assurance, New York Parks & Recreation, Mazda Motors and SAP America, Inc.

**Acquisition in January 2019:** Successfully acquired Payroll Maxx, headquartered in Omaha, NE. Payroll Maxx resells Asure Software's industry leading HRIS platform, Evolution, working with companies to reduce payroll compliance risk and manage time through comprehensive workforce management solutions. Payroll Maxx increases our national presence not only with the addition of an Omaha location, but also with their expansive client base. Consistent with our strategy, we are looking forward to continuing to service their client base with the same customer service they are accustomed to while introducing them to our workspace technology, time and attendance solution and our HR consulting services.

**Appointed Rhonda Parouty as Chief Operating Officer:** With extensive management experience spanning nearly three decades, Parouty brings valuable leadership to Asure's executive team during a period of rapid growth. As COO, Parouty will plan, direct, and oversee Asure's operational policies, rules, initiatives, and goals. She will execute long-term and short-term directives by implementing judgement, vision, management, and leadership. We are thrilled to have a steady hand at the operational helm as we continue to grow our business and broaden our customer base.

**Amended its Credit Agreement:** Asure revised the terms of its credit agreement with Wells Fargo and Goldman Sachs. The new agreement increased the leverage ratio covenant requirements, which improves Asure's financial flexibility as we proceed with our growth initiatives.

**\*Non-GAAP Financial Measures:** This press release includes information about non-GAAP diluted earnings per share, non-GAAP tax rates, non-GAAP net income, non-GAAP gross profit, non-GAAP EBITDA, and non-GAAP free cash flow (collectively the "non-GAAP financial measures"). These non-GAAP financial measures are measurements of financial performance that are not prepared in accordance with U.S. generally accepted accounting principles and computational methods may differ from those used by other companies. Non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures and should be read only in conjunction with the company's consolidated financial statements prepared in accordance with GAAP.

Non-GAAP EBITDA differs from GAAP net loss in that it excludes things such as interest, tax, depreciation, amortization, stock compensation, and one-time expenses. Asure Software is unable to predict with reasonable certainty the ultimate outcome of these exclusions without unreasonable effort. Therefore, Asure Software has not provided guidance for GAAP net loss or a reconciliation of the foregoing forward-looking Non-GAAP EBITDA guidance to GAAP net loss.

Management uses both GAAP and non-GAAP measures when planning, monitoring, and evaluating the company's performance.

The primary purpose of using non-GAAP measures is to provide supplemental information that may prove useful to investors and to enable investors to evaluate the company's results in the same way management does.

Management believes that supplementing GAAP disclosure with non-GAAP disclosure provides investors with a more complete view of the company's operational performance and allows for meaningful period-to-period comparisons and analysis of trends in the company's business. Further, to the extent that other companies use similar methods in calculating non-GAAP measures, the provision of supplemental non-GAAP information can allow for a comparison of the company's relative performance against other companies that also report non-GAAP operating results.

Specifically, management is excluding the following items from its non-GAAP earnings per share, as applicable, for the periods presented in the third quarter 2019 financial statements and for its non-GAAP estimates for 2019:

**Stock-Based Expenses:** The company's compensation strategy includes the use of stock-based compensation to attract and retain employees and executives. It is principally aimed at aligning their interests with those of our stockholders and at long-term employee retention, rather than to motivate or reward operational performance for any particular period. Thus, stock-based compensation expense varies for reasons that are generally unrelated to operational decisions and performance in any particular period.

**Amortization of Purchased Intangibles:** The company views amortization of acquisition-related intangible assets, such as the amortization of the cost associated with an acquired company's research and development efforts, trade names, customer lists and customer relationships, and acquired lease intangibles, as items arising from pre-acquisition activities determined at the time of an acquisition. While these intangible assets are continually evaluated for impairment, amortization of the cost of purchased intangibles is a static expense, one that is not typically affected by operations during any particular period.

**Income Tax Effects and Adjustments:** Beginning in first quarter 2018, the company is using a fixed projected non-GAAP tax rate in order to provide better consistency across the interim reporting periods by eliminating the effects of items such as changes in the tax valuation allowance and non-cash tax effects of acquired goodwill and amortization, since each of these can vary in size and frequency. This tax rate could be subject to change for a variety of reasons, such as significant changes in the acquisition activity or fundamental tax law changes in major jurisdictions where the company operates. The company re-evaluates this tax rate on an annual basis or when any significant events that may materially affect this rate occur. The non-GAAP tax rate is currently projected to be approximately 0.0 percent.

**Amortization of Capitalized Internal-Use Software, Acquisition-Related, and One-Time Expenses:** The company's non-GAAP financial measures exclude amortization of internal-use capitalized software costs and acquisition-related expenses as well as one-time expenses, such as material tax credits, material interest-expense credits, severance, recruitment, and relocation.
