Asure Announces Integration with H&R Block to Streamline Tax Preparation for Employees of Small Businesses

January 18, 2023

AUSTIN, Texas, Jan. 18, 2023 (GLOBE NEWSWIRE) -- Asure Software, Inc., (Nasdaq: ASUR), a leading provider of cloud-based Human Capital Management (“HCM”) software solutions, today announced an integration with H&R Block to make tax season easier for employees and small businesses.

The integration between Asure and H&R Block allows employees to electronically access their W-2s directly from Asure into H&R Block's tax preparation software. This eliminates the need for employees to manually enter their tax information, saving them time and reducing the potential for errors.

"We are excited to partner with H&R Block to provide employees of our customers with a seamless and efficient way to prepare their taxes," said Pat Goepel, Chairman, and CEO of Asure.

In addition to saving employees time, this integration also helps small businesses compete against larger companies for talent. By offering a streamlined tax preparation process, small businesses can show their employees that they value their time and convenience. "This integration is a great example of how technology can make life easier for employees and allows small businesses to offer services previously only available at large companies," added Goepel.

The integration between Asure and H&R Block is now available for all employees receiving a W2 from Asure’s customers.
