

Asure Tax Now Available on Oracle Marketplace

September 1, 2026

Asure Tax enables organizations running Oracle Fusion Cloud HCM to support multi-jurisdiction payroll tax filing, funding, and money movement services, without requiring organizations to migrate their payroll system of record

AUSTIN, Texas, Sept. 01, 2026 (GLOBE NEWSWIRE) -- Asure Software, Inc. (Nasdaq: ASUR), a provider of payroll and HR solutions for employers and enterprise payroll tax and treasury infrastructure, and an Oracle partner, has made Asure Tax available on Oracle Marketplace and can be integrated with Oracle Fusion Cloud Human Capital Management (HCM).

Asure Tax (listing on Oracle Marketplace) adds payroll tax and treasury capabilities for organizations running Oracle Fusion Cloud HCM. It supports federal, state, and local payroll tax filing and remittance, funds movement, agency notice tracking, and reconciliation of tax liabilities against payments. Asure files across all 50 states and more than 800 jurisdictions and maintains an on-time filing rate above 99 percent.

The integration uses Oracle Fusion Cloud HCM as the payroll system of record, enabling customers to add tax and treasury execution without migrating their core payroll system. Payroll, tax, finance, and treasury teams can track filing status, payment activity, and open agency items through the Asure Tax Portal.

Oracle Marketplace is a centralized repository of enterprise applications offered by Oracle and its partners. It is a one-stop shop for Oracle customers seeking trusted business applications and services offering unique solutions.

Oracle Fusion Cloud Applications provide an integrated suite of AI-powered cloud applications that enable organizations to execute faster, make smarter decisions, and lower costs. Oracle Fusion Cloud HCM provides a unified AI-powered platform that connects people, processes, and data to help organizations streamline tasks throughout the employee lifecycle, enhance the employee experience, and drive better business outcomes with a human-agent workforce.

"Enterprises modernize their HR systems about once a decade, and payroll tax is the piece nobody wants to open during that project. It does not get touched unless the automation is worth the disruption," said Pat Goepel, Chairman and CEO of Asure. "Meanwhile the compliance requirements and the money movement rules keep changing faster than the systems built to handle them. Keeping pace with that is our business, and Oracle Marketplace puts it in front of these teams while the decision is still open."

"Asure's participation in Oracle Marketplace further extends our commitment to the Oracle community and enables customers to easily reap the benefits of Asure Tax. We look forward to leveraging the power of Oracle Fusion Cloud Applications to help us achieve our business goals."

Additional Details

Asure Tax is available to enterprise and mid-market organizations running Oracle Fusion Cloud HCM. Coverage includes federal, state, and local filing and payment obligations, jurisdiction registrations, agency correspondence and notice response, liability reconciliation, and audit-ready exports for reconciliation and general ledger mapping. Details are available at asuresoftware.com/oracle-hcm-cloud-payroll-tax-management and asuresoftware.com/solutions-hub/tax-portal.

About Asure Software

Asure (Nasdaq: ASUR) provides payroll and HR solutions for employers and enterprise payroll tax and treasury infrastructure for large organizations. For employers, Asure's platform covers payroll, HR, recruiting, time and attendance, benefits, and compliance — delivered through AsureCentral, its connected platform, or through AsureWorks, its managed services offering for employers who prefer to outsource the work entirely. For large enterprises, Asure's payroll tax and treasury infrastructure handles multi-jurisdiction tax filing, funding, and money movement, integrating with platforms including Workday, Oracle, and SAP.
