ASURE SOFTWARE, INC.
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands, except per share data unless otherwise noted)

NOTE 1 – GENERAL AND BASIS OF FINANCIAL STATEMENTS

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission and accordingly, do not include all information and footnotes required under U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, these interim financial statements contain all adjustments, consisting of normal, recurring adjustments, necessary for a fair presentation of the financial position of Asure Software, Inc. (“Asure” or the “Company”) as of June 30, 2012 and December 31, 2011, the results of operations for the three and six months ended June 30, 2012 and 2011, and the cash flows for the six months ended June 30, 2012 and 2011. These condensed consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements and notes thereto filed with the Securities and Exchange Commission in the Company’s annual report on Form 10-K for the fiscal year ended December 31, 2011. The results for the interim periods are not necessarily indicative of results for a full fiscal year.

On March 27, 2012, the Board of Directors declared a 3-for-2 stock split, payable April 30, 2012 to the holders of record of the Company’s common stock as of the close of business on April 23, 2012. The Company will make cash payments based upon the closing price of the Company’s shares on the record date in lieu of the issuance of fractional shares. Share and per share information in these financial statements reflect the impact of the 3 for 2 stock split.

As of June 30, 2012, Asure’s principal source of liquidity consisted of \$1,493 of current cash and cash equivalents as well as future cash generated from operations. The increase of cash and cash equivalents of \$426 for the six months ended June 30, 2012 is due primarily to cash generated from operations. The Company believes that it has and/or will generate sufficient cash for its short and long term needs. The Company is continuing to reduce expenses and thus may utilize its cash balances in the short-term to reduce long-term costs. The Company expects that it will be able to generate positive cash flows from operating activities for the remainder of 2012.

Management is focused on growing its existing software operations and looking to make strategic acquisitions in the near future. In the short-term, any acquisitions will be funded with equity, cash on the balance sheet, cash from operations, or cash or debt raised from outside sources.

There is no assurance that the Company will be able to grow its cash balances or limit its cash consumption and thus maintain sufficient cash balances, and it is possible that the Company’s future business demands may lead to cash utilization at levels greater than recently experienced. Management believes that the Company has sufficient capital and liquidity to fund and cultivate the growth of its current and future operations for the next 12 months and thereafter. However, due to uncertainties related to the timing and costs of these efforts, Asure may need to raise additional capital in the future. Yet, there is no assurance that the Company will be able to raise additional capital if and when it is needed.

Effective July 1, Asure entered into a stock purchase agreement to acquire Meeting Maker – United States, Inc. (“Meeting Maker”) for a combination of cash, debt and stock transaction. The purchase price was composed of \$9,800 cash paid at closing; a \$3,000, two-year seller’s note; and the issuance of 255,000 shares of common stock, representing just under five percent of Asure’s outstanding shares (see Note 9 - Subsequent Events for further details).

The Company will record the transaction, using the acquisition method of accounting and will recognize assets and liabilities assumed at their fair value as of the date of acquisition. The results of Meeting Maker’s operations will be included in Asure’s consolidated operations beginning on the effective date of the acquisition.

The cash used in the transaction is from a new \$14,500 debt financing facility. In addition to funding the acquisition, the new facility allowed the Company to re-finance certain of its existing debt (see Note 9 - Subsequent Events for further details).

NOTE 2 – INTANGIBLE ASSETS

Asure accounted for its historical acquisitions in accordance with ASC 805, *Business Combinations*. The Company recorded the amount exceeding the fair value of net assets acquired at the date of acquisition as goodwill. The Company recorded intangible assets apart from goodwill if the assets had contractual or other legal rights or if the assets could be separated and sold, transferred, licensed, rented or exchanged. Asure's goodwill relates to the previous year acquisitions of ADI Time and Legiant. Asure's intangible assets relate to ADI Time, Legiant and its acquisition of iSarla Inc. and the iEmployee operations.

In accordance with FASB ASC 350, Asure reviews and evaluates its long-lived assets for impairment whenever events or changes in circumstances indicate that their net book value may not be recoverable. When such factors and circumstances exist, including those noted above, the Company compares the assets' carrying amounts against the estimated undiscounted cash flows to be generated by those assets over their estimated useful lives. If the carrying amounts are greater than the undiscounted cash flows, the fair values of those assets are estimated by discounting the projected cash flows. Any excess of the carrying amounts over the fair values are recorded as impairments in that fiscal period.

The gross carrying amount and accumulated amortization of the Company's intangible assets as of June 30, 2012 and December 31, 2011 are as follows:

Intangible Asset	Amortization Period (Years)	June 30, 2012		
		Gross	Accumulated Amortization	Net

ASURE SOFTWARE, INC.
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands, except per share data unless otherwise noted)

Amortization expense is recorded using the straight-line method over the estimated economic useful lives of the intangible assets, as noted above. Amortization expense for the three months ended June 30, 2012 and 2011 was \$292 and \$150 included in Operating Expenses and \$65 and \$45 respectively included in Cost of Goods Sold. Amortization expense for the six months ended June 30, 2012 and 2011 was \$586 and \$298 included in Operating Expenses, and \$128 and \$92 respectively included in Cost of Goods Sold. The following table summarizes the estimated amortization expense relating to the Company's intangible assets for the current year and the next four years and thereafter:

Twelve Months Ended	
December 31, 2012	\$ 1,361
December 31, 2013	1,146

NOTE 3 – FAIR VALUE MEASUREMENTS

Effective August 1, 2008, Asure adopted ASC 820, *Fair Value Measurements and Disclosures*. ASC 820 defines fair value, establishes a framework for measuring fair value in U.S. generally accepted accounting principles and expands disclosures about fair value measurements. The adoption of FASB ASC 820 did not have a material impact to the Company's consolidated financial statements.

ASC 820 establishes a three-tier fair value hierarchy, which is based on the reliability of the inputs used in measuring fair values. These tiers include:

- 1: Level Quoted prices in active markets for *identical* assets or liabilities;
- 2: Level Quoted prices in active markets for *similar* assets or liabilities; quoted prices in markets that are not active for identical or similar assets or liabilities; and model-driven valuations whose significant inputs are observable; and
- 3: Level Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following table presents the fair value hierarchy for the Company's financial assets measured at fair value on a recurring basis as of June 30, 2012 and December 31, 2011, respectively:

Description	Total Carrying Value at June 30, 2012	Fair Value Measure at June 30, 2012

NOTE 4 – RECENT ACCOUNTING PRONOUNCEMENTS

On May 12, 2011, the FASB issued ASU 2011-04 (Topic 220): *Fair Value Measurement*. The new guidance creates a uniform framework for applying fair value measurement principles. It eliminates differences between GAAP and International Financial Reporting Standards issued by the International Accounting Standards Board. New disclosures required by the guidance include: quantitative information about the significant unobservable inputs used for Level 3 measurements; a qualitative discussion about the sensitivity of recurring Level 3 measurements to changes in the unobservable inputs disclosed, including the interrelationship between inputs; and a description of the company's valuation processes. This guidance is effective for interim and annual periods beginning after December 15, 2011, and all amendments will be applied prospectively with any changes in measurements recognized in income in the period of adoption. The adoption of these standards did not materially affect our financial position or results of operations. On June 17, 2011, the FASB issued ASU 2011-05 (Topic 820): *Comprehensive Income*. The new guidance amends disclosure requirements for the presentation of comprehensive income. The amended guidance eliminates the option to present components of other comprehensive income ("OCI") as part of the statement of changes in shareholders' equity. All changes in OCI will be presented either in a single continuous statement of comprehensive income or in two separate but consecutive financial statements. The guidance does not change the items that must be reported in OCI. This guidance is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2011 with early adoption permitted. The adoption of this guidance will not impact the Company's consolidated financial position, results of operations or cash flows and will only impact the presentation of OCI in the consolidated financial statements. We adopted these standards in the first quarter of fiscal 2012. The adoption of these standards did not affect our financial position or results of operations.

NOTE 5 – SHARE BASED COMPENSATION

Share based compensation for the Company's stock option plans for the three months ended June 30, 2012 and 2011 were \$25 and \$14, respectively and \$35 and \$28 for the six months ended June 30, 2012 and 2011. The Company issued 1.5 thousand and 0 shares of common stock related to exercises of stock options granted from its Stock Option plan for the three months ended June 30, 2012 and 2011 respectively.

Asure has one active equity plan, the 2009 Equity Plan (the "2009 Plan"). The 2009 Plan provides for the issuance of non-qualified and incentive stock options to employees and consultants of the Company. Stock options are generally granted with exercise price greater than or equal to the fair market value at the time of grant and the options generally vest over three to four years and are exercisable for a period of five to ten years beginning with date of grant. The Company's 1996 Plan expired in April 2006, whereby the Company can no longer grant options under these plans. The Company's 2009 Equity Plan was amended and approved by the shareholders during the Annual meeting of the Stockholders on June 26, 2012 to increase the number of shares reserved under the plan from 525 thousand to 900 thousand. A total of 637 options have been granted and are outstanding pursuant to the plan as of June 30, 2012.

NOTE 6 – CONTINGENCIES

Asure was the defendant or plaintiff in various actions that arose in the normal course of business. None of the pending legal proceedings to which the Company is a party are material to the Company.

NOTE 7 – INCOME (LOSS) PER SHARE

Basic Income (Loss) per share (EPS) is computed based on the weighted average number of common shares outstanding for the period. Diluted EPS reflects the maximum dilution that would have resulted from incremental common shares issuable upon the exercise of stock options. The number of common share equivalents, which includes stock options, is computed using the treasury stock method.

The following tables provide the components of the basic and diluted EPS computations for the three and six month periods ended June 30, 2012 and 2011:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012	2011	2012	2011
Basic EPS Computation				
Net (Loss)/Income	\$ (323)	\$ 27	\$ (1,170)	\$ (33)
Weighted average shares outstanding	4,982	4,627	4,841	4,627
Basic Net (Loss)/Income per share	\$ (0.06)	\$ 0.01	\$ (0.24)	\$ (0.01)
	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2012	2011	2012	2011
Diluted EPS Computation				
Net (Loss)/Income	\$ (323)	\$ 27	\$ (1,170)	\$ (33)
Weighted average shares outstanding	4,982	4,627	4,841	4,627
Common shares equivalents	-	5	-	-
Diluted shares outstanding	4,982	4,632	4,841	4,627
Basic Net (Loss)/Income per share	\$ (0.06)	\$ 0.01	\$ (0.24)	\$ (0.01)

Stock options to acquire 637 thousand shares for the three and six month periods ended June 30, 2012 were excluded in the computations of diluted EPS because the effect of including the stock options would have been anti-dilutive and stock options to acquire 240 thousand and 261 thousand shares for the three and six months ended June 30, 2011 were excluded in the computations of diluted EPS because the effect of including the stock options would have been anti-dilutive.

In conjunction with the acquisition of ADI Software, LLC; the Company entered into a Promissory Note in the amount of \$1,095 with the Seller. The Promissory Note bears interest at an annual rate of 0.16%, will mature on October 1, 2014, and is guaranteed by the Company. The Purchaser may offset any indemnification payments owed by the Seller under the APA against up to \$1,000 under the Purchaser Note. The Company recorded the note at fair value using a discount rate of 9%, which resulted in an unamortized discount of \$226, which will accrete up the note to its aggregate principal amount over the course of the life of the loan using the effective interest method.

In conjunction with the acquisition of Legiant Software, LLC the Company entered into three separate Promissory Notes all payable to the Sellers. The details of each of the Promissory Notes are as follows:

Legiant - Sellers Note #1

Legiant Acquisition-Sellers Note #1 was for an aggregate principal amount of \$250 bears interest at an annual rate of 0.20%, matured on February 1, 2012, and was paid in full.

Legiant Acquisition-Sellers Note #3 is for an aggregate principal amount of \$1,761, bears interest at an annual rate of 0.20%, and will mature on October 1, 2014 when all interest and principal are due. The Company may offset any indemnification payments owed by the Seller under the acquisition agreement against up to \$1 million under Sellers Note #3. The Company recorded the note at fair value using a discount rate of 9%, which resulted in an unamortized discount of \$377, which will accrete up the note to its aggregate principal amount over the course of the life of the loan using the effective interest method and will be payable, in cash, on October 1, 2014.

All three promissory notes are guaranteed by the Company and are subordinated to the Company's bank financing discussed below.

Subordinated Convertible Notes Payable

On September 30, 2011, the Company entered into a Securities Purchase Agreement (the "9% Note Purchase Agreement") relating to the sale of \$1,500 aggregate principal amount of the Company's 9% subordinated convertible notes ("9% Notes") in a private placement to accredited investors to finance the ADI acquisition. The 9% Notes will pay interest on each of March 31, June 30, September 30 and December 31, beginning on December 31, 2011, at a rate of 9% per year. The 9% Note will mature on September 30, 2014. The 9% Note is secured by all of the assets of the Company and is subordinated to the Company's obligations to the Bank and the 15% Notes.

Beginning 12 months from the date of issuance, the holder may convert the 9% Notes into shares of the Company's common stock at a conversion price of \$5.00 per share. The conversion price will be adjusted for certain events, such as stock dividends and stock splits. Additionally, if the Company subsequently issues common stock at a price below the then current conversion price, the conversion price will be reset to the greater of \$3.27 per share (the closing price of the Company's Common Stock on September 30, 2011) or such lower price. In the event that a holder of a 9% Note elects to convert the 9% Note into equity, and the Company determines that such conversion would jeopardize the Company's tax benefits under Section 382 of the Internal Revenue Code, the Company may elect to prepay any or all of such 9% Notes prior to conversion, subject to certain limitations at a purchase price equal to the product of the number of shares into which the 9% Note is convertible and the volume weighted average closing price during the 20 day trading period beginning on the 10th day before the conversion notice is received by the Company multiplied by the Premium Rate. The Premium Rate is 1.1 if a holder notifies the Company of an intention to convert their 9% Note into equity prior to the date that is 90 days before the maturity date and 1.5 if such notification is made within 90 days of the maturity date. The 9% Notes also contain customary terms of default.

The 9% Note Purchase Agreement provides that, if the Company issues common stock below \$3.25 per share, each holder of the 9% Notes outstanding at that time will have the right to purchase its pro rata portion of such stock issuance.

These convertible notes contain embedded derivative instruments related to the conversion feature that are accounted for separately. The derivative instruments entered into to finance the ADI acquisition. The fair values of these instruments are re-measured each reporting period and a gain or loss is recorded for the change in fair value. At inception, the conversion feature was valued at \$274 and resulted in an original issue discount on the convertible debt, which will accrete up the note to its aggregate principal amount over the course of the life of the loan using the effective interest method. The Company used a Monte Carlo simulation in a risk-neutral framework to simulate market capitalization outcomes of the Company, including considerations of the Company's projected share price volatility, to estimate the fair value of the embedded derivative. The fair value of the conversion feature was \$835 at December 31, 2011, with \$561 being recorded in the income statement for the mark-to-market impact. This amount of \$561 was recorded in interest expense – amortization of OID and derivative mark-to-market in the consolidated statements of operations.

Effective on March 10, 2012, the terms of the convertible notes were amended to eliminate the embedded derivative features resulting in a settlement or extinguishment of the derivative liability. Under the terms of the amendment, each holder of 9% Notes is permitted to convert the outstanding principal balance due there under into shares of Common Stock of the Company at the conversion price originally set forth in the 9% Notes (\$5.00 per share of Common Stock) on or before March 15, 2012, to provide to the holders of the 9% Notes, as consideration for agreeing to the terms of the amendment, a one time cash payment, in such amount as follows: (i) with respect to holders of 9% Notes who do not elect to convert their Convertible Note prior to March 16, 2012, an amount equal to 3% of the outstanding principal amount of their 9% Note and (B) with respect to holders of 9% Notes who elect to convert their Convertible Note prior to March 16, 2012, an amount equal to 80% of the interest that such holder would have received if such holder had held the 9% Note to maturity, and remove the dilution protection provision which would have reset the conversion price below \$5.00 per share in the event that the Company made certain issuances of Common Stock at a price below \$5.00 per share of Common Stock. Approximately \$1,150 of the total \$1,500 of principal amount of 9% Notes was converted to shares of Common Stock.

The amendment to the 9% Notes resulted in a change of accounting treatment of the derivatives. Effective on March 10, 2012, the derivatives were no longer required to be accounted for on a separate basis. Therefore, the Company will no longer be required to re-measure the value of the derivatives after the amendment date. The fair value of the conversion feature was \$1,300 at March 31, 2012, with \$465 being recorded in the income statement for the mark-to-market impact. This amount of \$465 was recorded in interest expense – amortization of OID and derivative mark-to-market in the consolidated statements of operations. The conversion of the 9% Notes and elimination of the derivative liability resulted in a loss on debt conversion of \$199, a reduction in the carrying value of the 9% Notes to \$296 at March 31, 2012, and an increase in additional paid in capital of \$2,255 for the issuance of 230 shares for the Common Stock issued upon conversion. The Company also made cash payments of \$211 to holders that elected to convert in accordance with the terms of the amendment.

Mr. Goepel, the Company's Chief Executive Officer, purchased \$200 of the 9% Notes. Red Oak Fund, LP purchased \$600 of the 9% Notes. Mr. Sandberg, the Company's Chairman, is the controlling member of Red Oak Partners, LLC, which manages the Red Oak Fund. Both parties subsequently converted the 9% Notes under the terms of the amendment.

The aggregate principal amount of advances outstanding at any one time under the line of credit may not exceed 80% of eligible trade accounts and accounts receivable or the maximum principal amount then available, whichever is less.

The Company's obligations to the Bank are guaranteed by ADI Software, LLC, a wholly owned subsidiary of the Company, and secured by all of the assets of the Company and its subsidiaries. The Credit Agreement contains customary affirmative and negative covenants, including but not limited to limitations with respect to debt, liens, sale of equity interests, mergers and acquisitions, sale of assets, and loans or advances to and investments in others. Net loss as a percentage of total revenues were 7.7% for the three months ended June 30, 2012 compared to net income of 1.1% for the three months ended June 30, 2011. The net loss in Q2-12 was primarily to one-time expenses of \$487k, largely related to acquisition activity.

Asure generated a net loss of \$1,170, or \$(0.24) per share (basic and diluted), during the six months ended June 30, 2012, compared to a net loss of \$33 or \$(0.01) per share reported for the six months ended June 30, 2011. Net loss as a percentage of total revenues were 14.0 % and 0.7% for the six months ended June 30, 2012 and 2011, respectively.

Asure will continue to implement its corporate strategy for growing its software and services business by modestly investing in areas that directly generate revenue and positive cash flows for the Company. However, uncertainties and challenges remain, especially during this macroeconomic environment downturn, and there can be no assurance that the Company can successfully grow its revenues or achieve profitability during the remainder of fiscal year 2012.

LIQUIDITY AND CAPITAL RESOURCES

	FOR THE SIX MONTHS ENDED	
	JUNE 30,	
	2012	2011
	(in thousands)	
Working capital	\$ (4,203)	\$ 124
Cash, cash equivalents and short-term investments	1,493	2,026
Cash provided/(used) in operating activities	938	1,016
Cash provided/(used) in investing activities	(79)	(45)
Cash provided/(used) in financing activities	(459)	(24)

Working capital was (\$4,203) on June 30, 2012, a decrease of \$4,327 from \$124 on June 30, 2011. The decrease was due to increase in Deferred Revenue \$2,481 primarily due to acquired companies, increase in account payable \$946, increase in other liabilities \$311 and due to increase of \$656 in note payable and Line of credit.

Cash provided by operating activities was \$938 for the six months ended June 30, 2012 primarily due to a loss of (\$1,170) which was offset by the non-cash loss on debt conversion of \$198, depreciation and amortization of \$819, interest expense on amortization of OID and derivative mark-to-market of \$591, and due to increase in accounts payable of \$400. Cash provided by operating activities was \$1,016 for the six months ended June 30, 2011 was due to reduction in accounts receivable of \$297, depreciation and amortization of \$471 and increase in deferred revenue of \$290.

Cash used in investing activities was (\$79) for the six months ended June 30, 2012 due to net purchases of property and equipment for \$151 which was offset by collection of notes receivable for \$72. Cash used in investing activities was (\$45) for the six months ended June 30, 2011 due to purchases of property and equipment. Asure's current operations are not capital intensive and management does not anticipate any significant capital expenditures during the remainder of calendar year 2012.

The Company leases office space and equipment under non-cancelable operating leases that expire at various dates through 2015. Certain leases obligate Asure to pay property taxes, maintenance and insurance and include escalation clauses. Approximately \$1,235 or 77.5% of the Company's total operating lease obligations relate to its corporate office facility at Wild Basin in Austin, Texas.

Management continues to evaluate and reduce any unnecessary expenditure, while continuing to closely monitor all of its cash sources and uses as it manages its operations.

Cash used in financing activities was (\$459) for the six months ended June 30, 2012 which was primarily related to payments on notes payable conversion of \$222 and on capital leases and notes payable of \$308 which was offset by proceeds from exercise of options \$16 and \$55 from Line of credit. Cash used in financing activities was (\$24) for the six months ended June 30, 2011 related to payments on capital leases. Management believes it currently has sufficient cash and short-term investments on hand to fund its operations during the next twelve months and beyond without needing to obtain long-term financing. Therefore, the Company does not anticipate that it will be affected by any credit shortage in the current economic business environment.

Pursuant to Asure's stock repurchase plan, the Company is allowed to repurchase up to 450,000 shares (adjusted for the 3 for 2 stock split) of the Company's common stock. In total, Asure has repurchased 384,161 shares for approximately \$5.0 million over the life of the plan, including 65,046 (adjusted for 3 for 2 stock split) shares of common stock for \$110 purchased in 2010. Management will periodically assess repurchasing additional shares, depending on the Company's cash position, market conditions and other factors.

As of June 30, 2012, Asure's principal source of liquidity consisted of \$1,493 of current cash and cash equivalents as well as future cash generated from operations. The Company continues to make effort to reduce expenses and thus may utilize its cash balances in the short-term to reduce long-term costs. The Company expects that it will be able to generate positive cash flows from operating activities for the remainder of 2012.

Effective July 1st, Asure acquired Meeting Maker US, Inc (d/b/a "Peoplecube"). Peoplecube was NetSimplicity's largest competitor in the Meeting Room management industry. Asure issued \$14.5 million in new debt to fund this acquisition, in combination with paying down existing Asure and Peoplecube debt and paying onetime costs related to the acquisition. Asure's management expects this acquisition will result in an increase in EBITDA (Net Income before Interest, Taxes, Depreciation and Amortization and Stock Compensation expense) and free cash flow perspective immediately; excluding onetime costs related to the acquisition. Please see Asure's Form 8-K from July 6, 2012 for additional details.

Management is focused on growing its existing software operations and looking to make strategic acquisitions in the near future. In the short-term, any acquisitions will be funded with equity, cash on the balance sheet, cash from operations, and cash or debt raised from outside sources.

There is no assurance that the Company will be able to grow its cash balances or limit its cash consumption and thus maintain sufficient cash balances, and it is possible that the Company's future business demands may lead to cash utilization at levels greater than recently experienced. Management believes that the Company has sufficient capital and liquidity to fund and cultivate the growth of its current and future operations for the next 12 months and thereafter. However, due to uncertainties related to the timing and costs of these efforts, Asure may need to raise additional capital in the future. Yet, there is no assurance that the Company will be able to raise additional capital if and when it is needed.
