We do not expect to receive any cash proceeds when we issue shares of common stock offered by this prospectus. If required, we will provide further information by means of a post-effective amendment to the registration statement or a supplement to this prospectus once we know the actual information concerning a specific transaction.

We will pay all expenses of any offerings of shares of our common stock under this prospectus. We do not expect to pay underwriting discounts or commissions in connection with any issuance of the shares of our common stock, although we may pay finder’s, investment banking or financial advisory fees to broker-dealers from time to time in connection with certain business combination transactions, and, in some cases, we may issue shares of our common stock offered by this prospectus in full or partial payment of such fees. Any person receiving finder’s, investment banking or financial advisory fees may be deemed to be an “underwriter” within the meaning of Section 2(a)(11) of the Securities Act of 1933, as amended (the “Securities Act”)

Overview

We are a leading provider of cloud-based Human Capital Management (“HCM”) software and services and, until its divestiture in December 2019, Workspace Management software solutions. We help small and mid-sized companies grow by helping them build better teams with skills that get them to the next level, stay compliant with ever changing federal, state, and local tax jurisdictions and labor laws, and better allocate cash so they can spend their financial capital on growing their business rather than back-office overhead expenses. Asure’s Human Capital Management suite, named AsureHCM, includes cloud-based Payroll & Tax, HR, and Time & Attendance software as well as HR Services ranging from HR projects to completely outsourcing payroll and HR staff. We also offer these products and services through our network of reseller partners.

Our platform vision is to help clients grow their business and become the most trusted HCM resource to entrepreneurs everywhere. Our product strategy is driven by three primary challenges that prevent businesses from growing: HR complexity, allocation of both human and financial capital, and the ability to build great teams. The AsureHCM suite includes four product lines: AsurePayroll&Tax, AsureHR, AsureTime&Attendance, and AsureHRServices.

For all of Asure’s product lines, we believe support and professional services are key elements of our value proposition and overall solution. In addition to state-of-the-art hosting platforms and regular software upgrades and releases, Asure gives clients easy access to our skilled support team. Our services and support representatives are knowledgeable about Asure’s solutions and HR best practices as many staff have professional certifications in payroll and human resources.

Our sales and marketing strategy includes both direct and indirect channels to target small and mid-sized businesses (SMBs) throughout the United States. Our direct sales and marketing efforts include marketing directly to SMBs and their trusted advisors which include CPAs, banks, and benefits brokers who frequently refer their clients to HCM vendors. Our indirect model licenses our HCM software to resellers that provide value-add HCM services to their clients. These resellers include pure-play payroll providers focused on a geographic or industry niche as well as CPAs, banks, and benefits brokers that want to expand relationships with their clients directly without referring those clients outside their business.

We are actively search for potential product, service or business acquisitions that we believe will complement our existing and planned product and service offerings. More strategically, we typically target and nurture a pipeline of potential acquisitions from our reseller channel. Those acquisitions can be highly accretive because they easily tuck into our existing infrastructure and do not require the underlying clients to change software platforms.

Our principal executive offices are located at 3700 N. Capital of Texas Hwy., Suite 350, Austin, Texas 78746, and our telephone number is (512) 437-2700. Our website is located at www.asuresoftware.com. The information contained on, or that may be obtained through, our website is not part of, and is not incorporated in, this prospectus. Anti-Takeover Effects of Provisions of Our Certificate of Incorporation, Our Bylaws and Delaware Law

Some provisions of Delaware law, our certificate of incorporation and our bylaws contain provisions that could make the following transactions more difficult: an acquisition of us by means of a tender offer; an acquisition of us by means of a proxy contest or otherwise; or the removal of our incumbent officers and directors. It is possible that these provisions could make it more difficult to accomplish or could deter transactions that stockholders may otherwise consider to be in their best interest or in our best interests, including transactions that might result in a premium over the market price for our shares.

These provisions, summarized below, are intended to discourage coercive takeover practices and inadequate take-over bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with our board of directors. We believe that the benefits of the increased protection of our potential ability to negotiate with the proponent of an unfriendly or unsolicited proposal to acquire or restructure us outweigh the disadvantages of discouraging these proposals because negotiation of these proposals could result in an improvement of their terms.

Stockholder Meetings

Our bylaws provide that a special meeting of stockholders may be called only by our chairman of the board, chief executive officer or by our secretary upon order of our board of directors or the holders of 10% of the outstanding shares of each class entitled to vote. Only one special meeting may be called per calendar year, unless at least 13 months have passed since the last annual meeting, in which case a second special meeting may be called.

Requirements for Advance Notification of Stockholder Nominations and Proposals

Our bylaws establish advance notice procedures with respect to stockholder proposals to be brought before a stockholder meeting and the nomination of candidates for election as directors, other than nominations made by or at the direction of the board of directors or a committee of the board of directors.

Limitations on Stockholder Action by Written Consent

Our certificate of incorporation generally grants stockholders a 20-day right to reconsider and revoke an act consented to by written consent without a meeting, except for a consent solicitation conducted by us when the matter is on behalf of the board of directors and is uncontested. Written consents are valid only for 60 days from the earliest date of consents delivered to us.

Common Stock Ownership of Directors and Chief Executive Officer

Our bylaws provide common stock ownership guidelines for our independent directors and our Chief Executive Officer. Independent directors are expected to acquire and hold during their service as directors a number of shares based on years of service, ranging from one year by value of board compensation within two years of becoming a board member, to 4.5% of our outstanding shares within ten years of becoming a board member. Our Chief Executive Officer is expected to acquire and hold during his or her service as CEO a number of shares valued as one year's worth of annual base compensation.

Delaware Anti-Takeover Statute

We are subject to Section 203 of the DGCL, which prohibits persons deemed to be "interested stockholders" from engaging in a "business combination" with a publicly held Delaware corporation for three years following the date these persons become interested stockholders unless the business combination is, or the transaction in which the person became an interested stockholder was, approved in a prescribed manner or another prescribed exception applies. Generally, an "interested stockholder" is a person who, together with affiliates and associates, owns, or within three years prior to the determination of interested stockholder status did own, 15% or more of a corporation's voting stock. Generally, a "business

combination” includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. The existence of this provision may have an anti-takeover effect with respect to transactions not approved in advance by the board of directors.

The provisions of Delaware law, our certificate of incorporation and our bylaws could have the effect of discouraging others from attempting hostile takeovers and, as a consequence, they may also inhibit temporary fluctuations in the market price of our common stock that often result from actual or rumored hostile takeover attempts. These provisions may also have the effect of preventing changes in the composition of our board and management. It is possible that these provisions could make it more difficult to accomplish transactions that stockholders may otherwise deem to be in their best interests

PLAN OF DISTRIBUTION

This prospectus is part of an “acquisition shelf” registration statement on Form S-4 that we have filed with SEC and relates to 12,500,000 shares of our common stock that may be offered by us from time to time in connection with business combination transactions, including acquisitions of other businesses, assets, properties or securities. We are actively search for potential product, service or business acquisitions that we believe will complement our existing and planned product and service offerings. More strategically, we typically target and nurture a pipeline of potential acquisitions from our reseller channel. Factors we consider in evaluating a business combination transaction may include, among others, the quality and reputation of the business to be acquired and its management, the strategic market position of the business to be acquired and its proprietary assets, earning power, cash flow and growth potential and the ability of the business to integrate with us.

In addition to the shares of our common stock offered by this prospectus, we may offer other consideration in connection with such business combination transactions, including, but not limited to, cash and notes or other evidences of indebtedness, assumption of liabilities or a combination of these types of consideration. The amount and type of consideration that we will offer and the other specific terms of each business combination transaction will be determined by negotiations with the owners or persons who control the businesses, assets, properties or securities to be acquired. We may structure business combination transactions in a variety of ways, including, but not limited to, acquiring stock, other equity interests or assets of the acquired business, merging the acquired business with us or one of our subsidiaries or acquiring the equity interests or assets of the acquired business through one of our subsidiaries. We expect that the price of the shares of our common stock will be reasonably related to the market price of our common stock when we agree to the particular terms of a business combination transaction, when the business combination transaction is completed and the shares are delivered or over some other negotiated period. In addition to shares of our common stock, consideration for these acquisitions may consist of any consideration permitted by applicable law, including, without limitation, the payment of cash, the issuance of preferred stock, the issuance of a note or other form of indebtedness, the assumption of liabilities or any combination of these items. We do not expect to receive any cash proceeds when we issue shares of our common stock. If required to furnish information necessary for a particular negotiated business combination transaction, we will provide this further information by means of a post-effective amendment to the registration statement or a supplement to this prospectus once we know the actual information concerning a specific transaction.

We will pay all expenses of any offerings of shares of our common stock under this prospectus. We do not expect to pay underwriting discounts or commissions in connection with any issuance of the shares of our common stock or rights to acquire offered by this prospectus, although we may pay finder’s, investment banking or financial advisory fees to broker-dealers from time to time in connection with certain business combination transactions, and, in some cases, we may issue shares of our common stock offered by this prospectus in full or partial payment of such fees. Any person receiving finder’s, investment banking or financial advisory fees may be deemed to be an “underwriter” within the meaning of Section 2(a)(11) of the Securities Act.

In an effort to maintain an orderly market in our common stock or for other reasons, we may negotiate agreements with persons receiving shares of our common stock offered by this prospectus that will limit the number of shares that they may sell at specified intervals. These agreements may be more or less restrictive than restrictions on sales made under various exemptions from the registration requirements of the Securities

Act, including the requirements under Rule 144, and the persons party to these agreements may not otherwise be subject to the Securities Act requirements. We may also determine to waive any such agreements without public notice.

LEGAL MATTERS

Cozen O'Connor, P.C, Minneapolis, Minnesota, will issue an opinion about certain legal matters with respect to the securities offered hereby.
