Asure Software Announces Availability of Enhanced Microsoft Outlook(R) Plug-In

Latest Release of Meeting Room Manager Includes Delegate Scheduling and Conflict Resolution Features

AUSTIN, TX, Nov 10, 2008 (MARKET WIRE via COMTEX News Network) -- Asure Software (NASDAQ: ASUR), a leading provider of workforce management solutions, announced today the general availability of the latest version of NetSimplicity's Meeting Room Manager (MRM), including a robust delegate feature and meeting conflict resolution via its Microsoft Outlook® Plug-in functionality.

The latest release of Meeting Room Manager includes the following features:

- Enhanced functionality enabling easy booking by predefined delegates that may be maintaining an executive or peer calendar.
- Addition of a "private" feature, allowing for details of meetings to be hidden from view where needed.
- Recurring meeting conflict resolutions that offer immediate options for accommodating the schedule in Microsoft Outlook Plug-in.

"NetSimplicity's Meeting Room Manager embraces and extends the Microsoft Outlook appointment interface to provide Outlook schedulers total control over all aspects of their meetings," said John Stockton, Vice President of Product Management at Asure Software. "By adding delegate scheduling, private meeting details, and more sophisticated conflict resolution, this release meets the needs of the most demanding Outlook users."

Consistent with its commitment to provide customers with a flexible, integrated and affordable solution, Asure Software continues to enhance and implement customer driven improvements to the MRM product. As a result, customers now have a robust, cost-effective solution to manage all aspects of room and resource scheduling directly from Microsoft Outlook, resulting in:

- Flexible booking by delegates: Assigned individuals can book meetings on behalf of others easily through the Web interface or Outlook.
- Faster meeting scheduling: Rooms are easier to find and attendees and rooms are booked together in one simple process directly from Microsoft Outlook.
- No double-bookings: MRM can synchronize Outlook, Web and Integrated LCD Panel room bookings in real-time with no possibility to double book.
- Integrated meeting services: Can order catering, A/V and other ancillary services and equipment when users book meetings.
- Managed room scheduling: Apply consistent MRM controls to room booking rights and processes.
- Rapid user adoption: Seamless integration, together with a consistent "look and feel" allowing Outlook schedulers to easily leverage MRM with no additional training.

Availability

The latest version of Meeting Room Manager (MRM) is generally available now.
